VACANCY NOTICE

POSITION : ASSOCIATE PROFESSOR – ADVANCED MANUFACTURING
LOCATION : Kuching, Sarawak (Malaysia)
INDUSTRY : Education
TYPE : Fixed Term Contract
REF : C13032026/FECS/FBDA

JOB SUMMARY

The position of Associate Professor (PhD) – The Faculty of Engineering, Computing, and Science is seeking to appoint an Associate Professor (PhD) in Advanced and Smart Manufacturing to support Sarawak's strategic agenda of strengthening its advanced manufacturing ecosystem and fostering collaboration with international and local aerospace and high-technology industry partners. The successful candidate must hold a relevant PhD from a recognised institution, with expertise in areas such as advanced and smart manufacturing, mechatronics and automation systems, Industry 4.0/5.0 technologies, robotics and automation, additive manufacturing, or manufacturing process optimisation.

Professional Engineer (PEng) registration is compulsory, and additional professional qualifications such as IPEA or APEC Engineer are highly desirable. Candidates should have demonstrated experience in higher education teaching, a strong research track record with impactful publications, proven success in securing research grants, and experience supervising postgraduate students. Experience in industry collaboration and technology transfer in advanced and smart manufacturing and mechatronics will be highly valued.

Position Purpose

The academic staff will normally make an overall superior contribution to the research, scholarship, teaching and administration activities of an organisational unit, including a large organisational unit, or interdisciplinary area and would normally have at least one portfolio area of outstanding attainment.

The academic staff will make a superior contribution to:

- the governance and collegial life inside and outside as relevant, of the institution;
- the discipline in either teaching and learning, research and scholarship and/or leadership, service and engagement (in accordance with the weighted performance in the portfolio) that has attained recognition normally at an international level in his or her discipline (in exceptional circumstances recognition at a national level may be considered);
- original and innovative advancement of scholarship, research and/or teaching in his or her discipline (in accordance with the weighted performance in the portfolio);
- fostering research, teaching and policy development in the academic discipline within the institution and within the community, professional, commercial and/or industrial sectors; and
- leadership in creating impact from academic expertise across commercialisation, industry engagement, community engagement, and/or student innovation.

This level will normally hold a qualification at the doctoral level and can demonstrate a record of academic excellence with outstanding contribution to teaching and/or research and/or leadership. In exceptional circumstances equivalent professional experience may be considered.

Key Responsibilities Areas

The Key Responsibility Areas (KRAs) represent the primary outputs for which the position is responsible for are not intended to provide a comprehensive list of all duties. They are derived from four portfolios applicable to Senior Lecturer:

- Learning & Teaching;
- Research;
- University Service, Leadership, Administration and Professional Activities; and
- Innovation and Engagement.

1) Learning and Teaching

- Pursuit of innovation and excellence in teaching.
- Ongoing development of curriculum and instructional material for different programs and levels.
- Convene unit of studies and conduct learning and teaching activities including lectures, tutorials (or laboratories), and assessment of students' learning to ensure a high standard of quality in the learning and teaching process.
- Provision of consultation and mentoring to students.
- Continuous development of teaching, training, and mentoring expertise.
- Design and delivery of training sessions for executive participants in management development programs.
- Expansion and development of the various learning and teaching activities of the School.
- Subject to operational needs, teaching hours may be scheduled beyond office hours including weekends.
- Undertaking of learning and teaching activities and achievement of associated impact expected at the appointed Academic Level

2) Research

- Development of a portfolio of activities supporting research and scholarship.
- Dissemination of research and scholarly output through relevant platforms.
- Supervision of honours and postgraduate (including doctoral) students.
- Contribution to research training activities within the School.
- Development of research groups within the School.
- Securing external support for research activities.
- Development of collaborative research networks.
- Undertaking of research activities and achievement of associated impact expected at the appointed Academic Level

3) University Service, Leadership, Administration & Professional Activities

- Maintenance of high academic and professional standards in all areas of activity.
- Administration and development of the learning programs offered by the School.
- Administration and development of the various educational policies and management systems within the School and the University.
- Development of a vibrant academic community within the School based on openness, collaboration, and experimentation.
- Professional engagement with business and industry, in fields relevant to the School.
- Leadership in academic and professional activities relevant to the School.
- Leadership in community affairs, particularly those related to the academic areas relevant to the School.
- Undertaking of leadership and service activities and achievement of associated impact expected at the appointed Academic Level

4) Innovation & Engagement

- Provide consultancy and advisory services to industry partners within areas of recognised domain expertise, in accordance with University policies and priorities.
- Contribute to policy development, applied scholarship, and thought leadership that informs industry practice and institutional direction.

- Participate in professional development programmes, opt-in initiatives, and workshops that support innovation and are aligned with the requirements of the role and the University's strategic objectives.
- Engage in professional development activities focused on the effective understanding and application of I&E Time, translating learning outcomes into meaningful contributions at the University.
- Participate in relevant industry forums with the objective of establishing and strengthening industry partnerships that deliver tangible benefit to the University (excluding academic conferences).
- Maintain active involvement and contribute to relevant professional and industry bodies.
- Contribute to internal and external communities of practice, special interest groups, professional organisations, or learned societies that advance innovation through academic expertise.
- Undertaking of innovation and engagement activities and achievement of associated impact expected at the appointed Academic Level

JOB REQUIREMENTS

- A relevant PhD from a recognised institution.
- Registration with a recognised professional engineering body such as Board of Engineers Malaysia is required.
- Professional Engineer (PEng) registration, along with IPEA or APEC Engineer qualifications, are highly desirable.
- Strong expertise in advanced and smart manufacturing, mechatronics and automation systems, Industry 4.0/5.0 technologies, robotics and automation, additive manufacturing, or manufacturing process optimisation.
- Significant teaching experience in higher education within a relevant discipline.
- Experience in establishing and developing successful partnerships between academia and industry is an advantage.
- A proven track record of substantial, high-quality research output with demonstrated impact and research leadership.
- A strong record of securing significant research grants.
